Child Management Policy

Dear Parents:

(Please read the following information carefully)

Our approach to discipline is based upon our goal of helping children build and maintain a positive self-concept. Clear, safe, and reasonable limits are set using positive guidance and appropriate role modelling techniques. We teach the children alternative, socially acceptable ways of dealing with situations where he/she may hurt others or damage property. In our preschool, we strive to create an atmosphere of respect for each other and other's belongings.

When redirection becomes necessary, the child will be guided in a positive manner discussing and finding alternatives and constructive ways of solving the problem. Each child is treated as an individual and every situation is handled on an individual basis.

If the staff find that a child has lost control or is unable to listen to reason and/or is a danger to himself, the other children and/or the staff, a child may be removed from the area they are playing in until the child is able to settle down and reason. The child will be gently guided to a safe space in the playroom for as long as it takes for the child to calm down and work through the problem/incident with the staff member. The children are never left alone or isolated. This opportunity is used for the staff and child to talk about feelings and work through strategies to get through the problem/incident. The presence of a caring, understanding adult can often help to calm an upset child. Once calm has been restored and a strategy is worked through, the staff and child will return to the main group. If in a rare occurrence calm is not able to be restored, we will call the parent to come assist and pick up their child.

At Fuzzy Pickles, we have a creative program planned, which will be implemented in an atmosphere of enthusiasm and mutual respect. By having an assortment of activities prepared, the possibility of behaviour problems is greatly reduced. When a child's behaviour is a concern, we will discuss the situation with the parent/guardian in person right after class or if the parent is not picking up that day we will call the parent directly to discuss. It is very important to us to have excellent staff/parent communication, it is for the best interest for the child and for our program.

Our goal is to help children balance their needs with those of others, to feel good about themselves, and become increasingly independent.

Amendment to child management plan according to childcare licensing regulations: A license holder must not, with respect to a child in the program, inflict or cause to be inflicted any form of physical punishment, verbal or physical degradation or emotional deprivation. Deny or threaten to deny any basic necessity or use or permit the

use of any form of physical restraint, confinement or isolation. Any child disciplinary action taken will be reasonable in the circumstances.

I am the parent/guardian of _____ . I have read the Fuzzy Pickles Preschool Management Policy as printed above, and I understand the policy as written.

Fuzzy Pickles Medication Policy

Fuzzy Pickles Preschool recognizes the administering of medication or medical treatment to the students is up to the Parent or Guardians and is to be the sole responsibility of the Parent or Guardian except in the case of accidents or emergencies.

If, under exceptional, emergency circumstances, a student must receive medication or medical treatment prescribed by a medical practitioner during the school day and the student is incapable of self-administration and the Parents/Guardians are unable to be at the school to administer the medication or treatment, the following will apply:

- The parent or guardian must store the medication at the school.
- The parent or guardian must fill out a signed **Medication Record** with written medical treatment instructions available at the school.
- The parent or guardian must obtain a letter from the child's physician outlining the medical treatment including the following information:
 - Child's name
 - Name of medication and/or treatment
 - Dosage / Time interval and procedure for administration
 - Possible side effects and procedure to follow in case of adverse reaction
 - Special storage instructions for the medication / risk to others
 - Termination date for administration
- The parent or guardian must assume responsibility for informing the preschool of any change in the child's health, medication or treatment.
- Except in case of accidents and emergencies, no employee shall administer any medication or medical treatment.
- The parent or guardian are advised that staff perform a monitoring function for the administration of medication but are not normally medically qualified to administer medication.
- No physical therapy will be performed on students by school staff.
- All staff members will be acquainted with the child's medication and/or treatment.
- Over-the-counter medications shall not be distributed to any student enrolled in Fuzzy Pickles Preschool, unless it is part of a medical treatment plan that is on file at the school, authorized by a medical practitioner by the form of a letter, and signed by the parent(s) or guardian(s). The over-the-counter medication must be supplied by the parent, clearly labeled with the child's name on it and replaced upon expiration.

Responsibilities and Rights of Staff

A staff member involved in the administration of medication and medical treatment has the following right:

- To receive a signed medical authorization form with instructions signed by the parent and to receive written medical treatment from a physician.
- To clarify their role in providing medication or treatment with the parent or board and to provide appropriate training to perform the expected medical responsibilities.
- To require that the insurance coverage carried by the Preschool adequately reflects the medical situation in which he is involved.
- To require that a consent form be signed by the Parent or Guardian which includes a section waiving the rights of the parent to pursue the Board or its staff in an action to recover damages for improper administering of medication or medical treatment.
- To protest, in writing, should they not feel competent or wish to reject to fulfill the medical treatment responsibly.

Emergency Treatment: Allergic Reactions

If a student has a potentially fatal or debilitating ALLERGIC REACTION that requires immediate emergency care, the following steps shall be taken:

1. The staff member who has been briefed on the proper treatment procedures shall administer the treatment or medication in strict accordance with the medical authorization form and the physician's instructions.
2. The person in charge will call 9-1-1 to secure trained medical assistance and arrange for the student to transport to a medical facility.
3. The student's parent/guardian shall also be contacted immediately and informed of the situation.

I hereby give my permission and consent for the above-named child to be taken to a doctor, medical clinic or hospital in case of accident or injury, if myself or contact person cannot be reached. I also give permission for staff to administer first aid for an injury or illness. In case of accident / damages for improper administering of medication to the said child during school time, we hereby covenant and agree that no action will be taken against Fuzzy Pickles Preschool, or any of its teachers, board members or volunteers. If an ambulance is required, I understand that I will be responsible for the costs involved.
